## Cover Star!

### ◀ Jessica

Level 7 CIPD Advanced Diploma  
in Strategic People Management

▮▮ I began my career in the legal industry but realised my passion was supporting people in the workplace. I enrolled on to the Level 3 CIPD and soon after secured a HR Assistant role. My employer went on to fund my Level 7 CIPD with the College, and a master's with Liverpool John Moores University.

I was impressed by the College's facilities, support services and the standard of teaching. The course gave me the confidence to drive my career forward and I am now a HR Business Partner.

### Stephen

Level 2 Painting and Decorating  
Apprenticeship ▶

▮▮ My apprenticeship has given me the opportunity to train on-the-job with my employer, HMS and gain a qualification at College, whilst earning a wage to support my family and progress in a career that I can stay in until I retire.

I feel very fortunate to have secured a role with an employer, who is so supportive of my development, and I still receive the same benefits as any other employee. Apprenticeships are a great opportunity for people of all ages.

## ◀ Stephen

GCSE English and Maths

|| I was studying a degree at University of Cumbria and needed to achieve GCSE English and maths to be able to graduate.

The tutors were excellent - they always provided extra support too such as revision sessions. Having achieved a grade 4 in maths and a grade 5 in English, I went on to pass my degree and I am now a qualified Radiographer at Liverpool Heart and Chest Hospital. Even after achieving a degree, passing maths is definitely the highlight of my year!

## Elechia

Access to HE Diploma:  
Health Professionals

|| I was inspired to pursue a career in nursing due to my own experiences with family members, who have had to rely on the NHS for care and support.

I was able to complete the course alongside a part-time job and caring for a child because of the incredible support I received from the College such as one-to-one tuition and access to their on-site nursery. This course has opened the door to university for me. I have been accepted at three different universities to study adult nursing!

Preparing for Work in Customer Services Course

“ I decided to study Preparing for Work in Customer Service to improve my chances of finding a career in this sector. The classroom was a fun and friendly environment and our tutor was very supportive, providing great tasks and activities to make the learning diverse and enjoyable.

At the end of the course, WorkWorld arranged for Serco to interview the class for their customer service vacancies. I was successful in securing employment, and have been able to implement the skills I learnt during the course in my job role. ”
