◀ Jodie

Access to HE - Health Professionals

“ I always wanted to work in healthcare but after a paramedic's life-saving actions helped my son, who experienced anaphylactic shock, I was inspired to become a paramedic myself. The support I received from tutors was incredible, which really helped me to balance my studies with a young family. The course taught me the level of standards I would need for university study and I am now a qualified paramedic and have a career for life. It's never too late to make a difference to people's lives and your future! ”

Howard

Colours Cookery ▶

“ My wife was an incredible cook and when she passed away, I wanted to make delicious dishes, just like she did. I love Italian food, so I enrolled on to the Taste of Italy course and was making the best lasagne I have ever tasted in no time! There was a great mix of people on the course and our tutor was brilliant, which made the experience even more fun. I have since completed the Spanish Delights and Flavours of the Earth courses. These courses have given me the confidence to try new things! ”

◀ Liam

Plumbing and Heating Apprenticeship

“ I wanted to pursue an apprenticeship to learn a practical trade, gain a recognised qualification and build a lasting career. I like being challenged by learning new things and my confidence is growing as I develop my skills and take on more responsibility. The College's workshops are great and allow me to work with the latest technologies and learn from industry experienced tutors. An apprenticeship is a brilliant way of gaining hands-on experience, qualifications and a salary while you work. ”

Kate ▶

English for Speakers of Other Languages (ESOL)

“ When I moved to the UK, I didn't know anyone and the ESOL course not only made me more confident in communicating, it also gave me a support system. I met my best friend on the course and we even progressed on to an accounting course together at College. The English tutors are not only amazing teachers, but they offer care and support to ensure you achieve your goals. I am so proud of all I have achieved! I now use my English and accounting skills everyday, running my own cosmetic beauty clinic, Bodhi Spa. ”

Supporting You

Financial Support

Don't let the cost of learning put you off studying!

We have lots of financial support options available to help you return to study.

JAMES

Preparing for Work in Customer Services Course

I decided to study Preparing for Work in Customer Service to improve my chances of finding a career in this sector. The classroom was a fun and friendly environment and our tutor was very supportive, providing great tasks and activities to make the learning diverse and enjoyable.

At the end of the course, WorkWorld arranged for Serco to interview the class for their customer service vacancies. I was successful in securing employment, and have been able to implement the skills I learnt during the course in my job role. 

* These courses may be free dependent on your personal circumstances and eligibility, subject to a fee assessment during the enrolment process.
